Following numbers “normalized”
to percentages

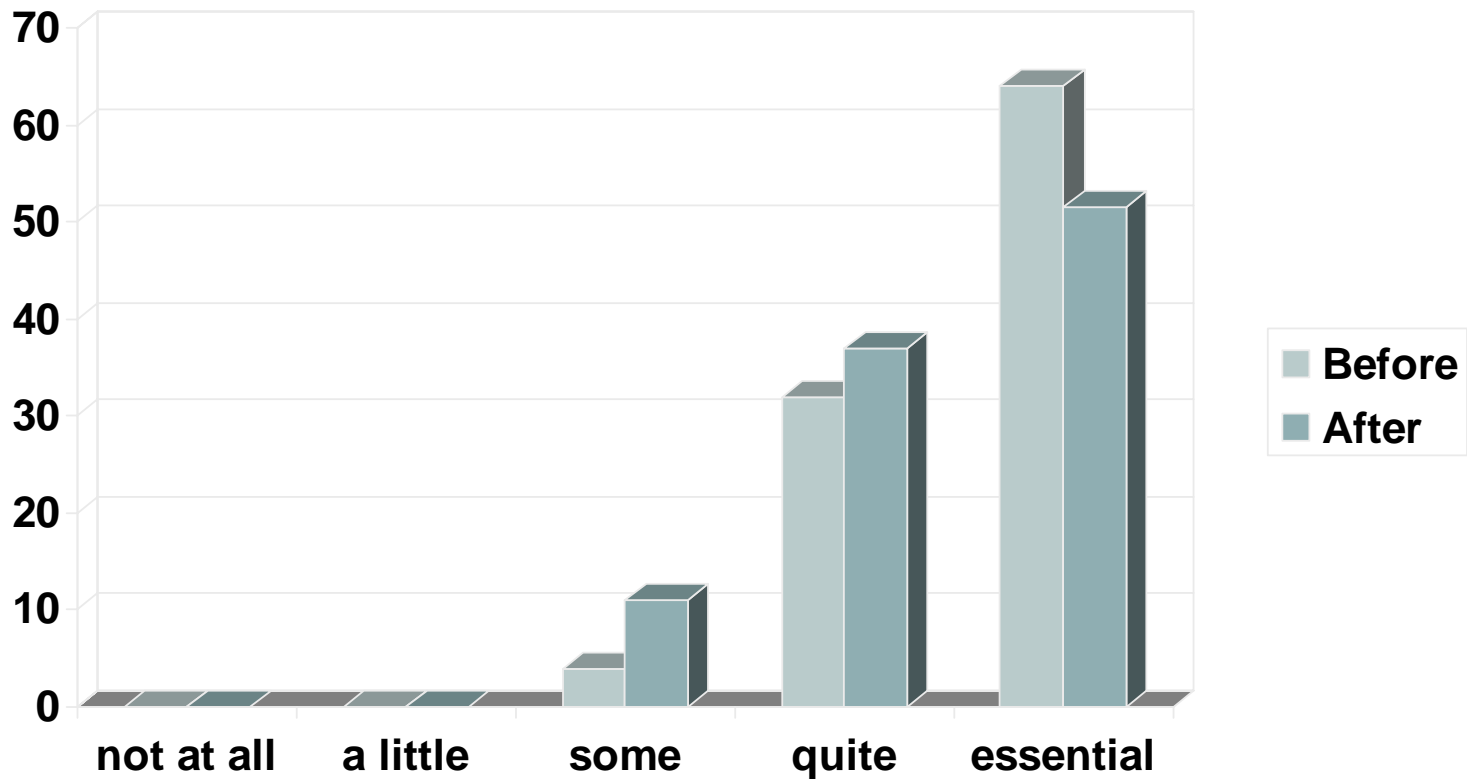

How important is public participation to a international waters project?

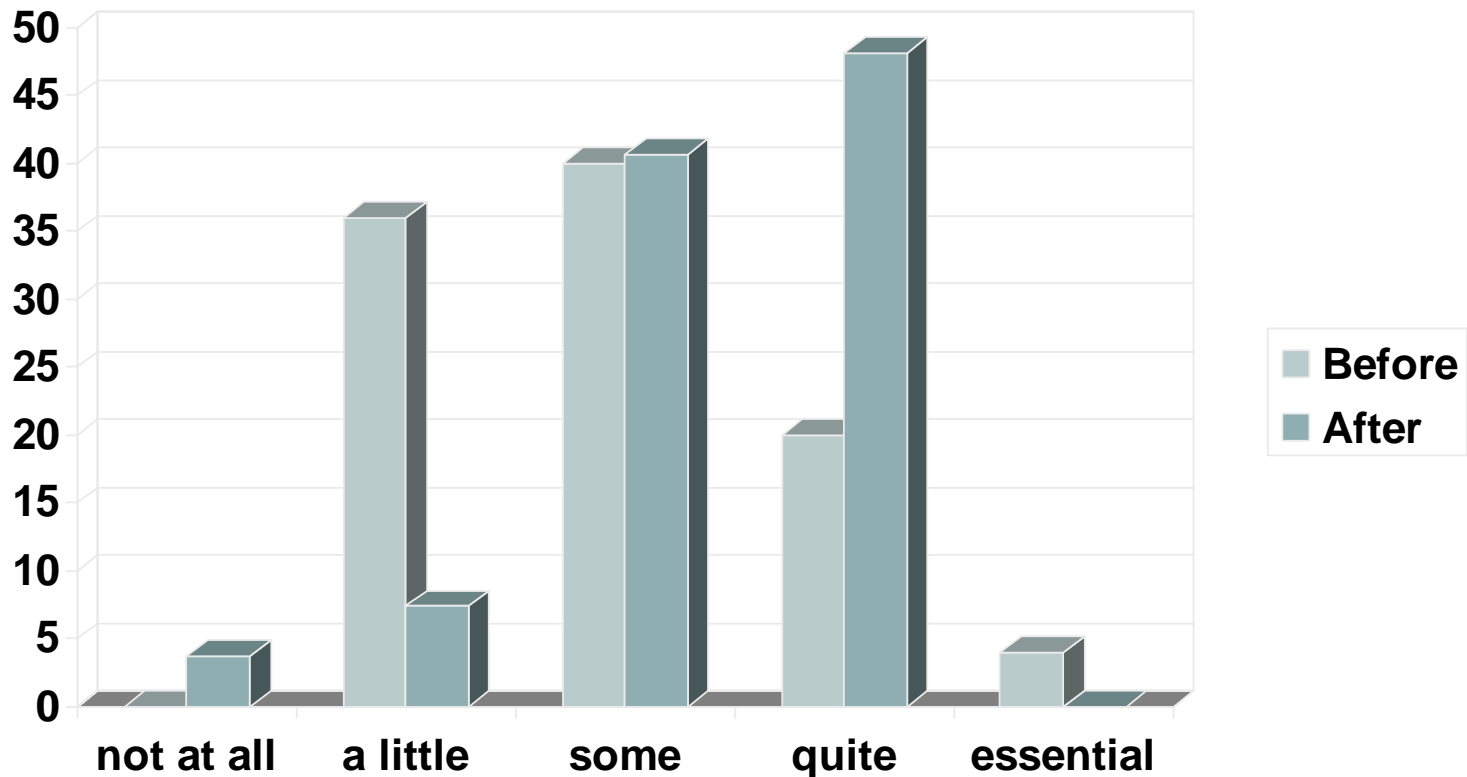

How important is public participation during project preparation (early in the process)?

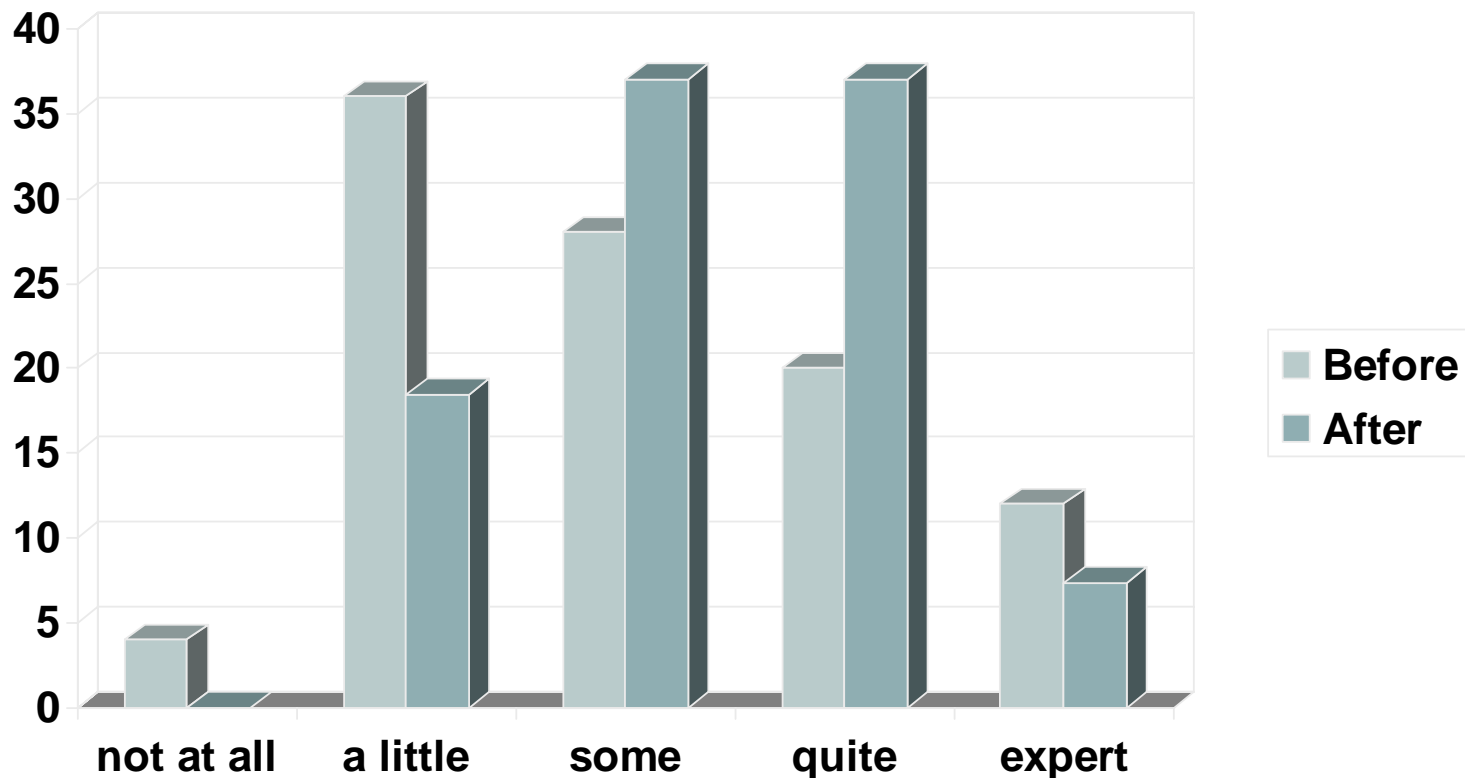

How important is public participation during project implementation?

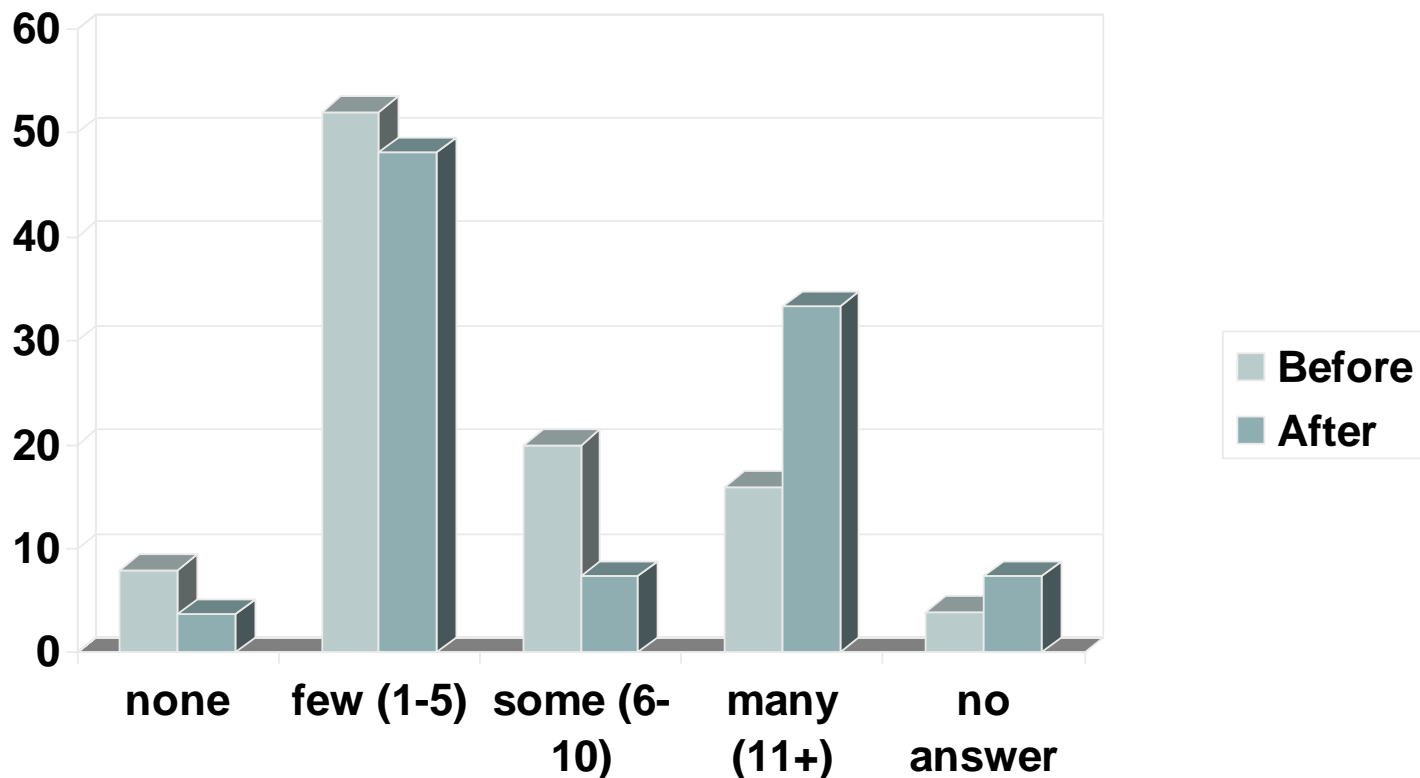

How familiar are you with the different approaches, techniques, and considerations for public participation?

To what extent do you know how to integrate these tools and techniques throughout the project cycle?

How many people do you know who can assist you in addressing your needs to enhance public participation?

What does this mean?
