### MedPartnership 2010 Annual Report: main results achieved

08/03/2011

The MedPartnership 2010 Annual Report report, prepared by UNEP/MAP, focuses on the implementation of the Regional Project in 2010, with a brief section on the status of the World Bank Investment Fund projects.

Specifically the report highlights the main results achieved so far on the following cross cutting themes:

- Support in the development of policy and legislative reforms;
- National and Regional Plans for the sustainable use of coastal and marine resources;
- Implementation of actions to reduce environmental stress (in particular pollution reduction);
- Capacity building;
- Development and demonstration of new methodologies and tools;
- Enhanced knowledge through assessments; and
- Effective communication of MedPartnership activities and results.
