

F&DMT update

Vol. 2

DSS status by June 6th 2015

As part of the workplan for 2015, DHI has been addressing the issue of designing the functionality of the DSS so it can assist decision makers in incorporating flood and drought issues into planning. To read more about what progress has been made with the functionality, please click [here](#).

Evaluating and review technical outputs

To tap into the vast experience and expertise around flood and drought issues at different scales, IWA and DHI have initiated a [Review Group](#) to independently evaluate and review the technical outputs from the project, in particular the functionality of the DSS. Members have been invited to provide input in a number of areas within the project to help validate the approaches defined in the DSS and how the results can be used.

This is an opportunity to collaborate with leading experts, share knowledge and learn from past experiences to develop an improved DSS and provide guidance on application. If you are interested in being part of the [Review Group](#), let us know!

Past and upcoming events

[International Conference on Drought](#) | 10-13 March

2015 | Valencia, Spain

- [Presentation](#)
- [Paper](#)

[7th World Water Forum](#) | 12-17 April 2015 | Daegu &

Gyeongsangbuk, Republic of Korea

[Flood and Drought Management Tools project at HAI](#)

[The Integrated Drought Management Programme in the Horn of Africa](#) | Gerald Kairu, GWP Eastern Africa

[KIWASCO experience in the Water Safety Planning development and implementation, and the significance of the F&D DSS tool](#)

[The Regional Forum on Climate Change \(RFCC\)](#) | 1-3 July 2015 | Bangkok, Thailand

[National Convention on Civil Engineering](#) | 8-10 July

2015 | Chonburi, Thailand

[EIT International Conference on Water Resources Engineering](#) | 5-

7 August 2015 | Udon Thani, Thailand

[Africa WSP Network Meeting](#) | 21-25 September 2015 | Accra, Ghana

[IWA Development Congress & Exhibition](#) | 18-22 October 2015 | Jordan

[Amsterdam International Water Week](#) | 2-6 November 2015 | Amsterdam, The Netherlands

If you are aware of any relevant events, please let the PMU know!

Other business

We kindly request that you provide the PMU with any relevant news items or blog postings as well as additional communication material that you would like the project to communicate.

Please feel free to distribute this newsletter to your wider network and if you have any questions for the PMU, please do not hesitate to contact us.

in the implementation process | George Odero, Joshua Oria and David Onyango, KIWASCO

A flyer describing how the FDMT project will be addressing drought using the DSS is now available. Please download it [here](#).
