

# CORNELL CENTER FOR THE ENVIRONMENT (CfE) News and Announcements - June 10, 2008

## ANNOUNCEMENTS

### Message regarding the Center for the Environment

On June 30, 2008, the Center for the Environment (CfE) at Cornell University will officially close. The environmental mission of CfE will become a key part of the new Cornell Center for a Sustainable Future (CCSF), a cross-campus organization advancing a portfolio of research activities covering energy, the environment, and economic development programs. The CCSF promotes collaborations across Cornell and with selected external partners, leveraging Cornell's resources to help build a sustainable future for the world. The CCSF website is <http://sustainablefuture.cornell.edu/>.

Programs developed by the CfE will transition to CCSF over the next year. In particular, the **Jill and Ken Iscol Distinguished Environmental Lectures**, which bring prominent scholars, newsmakers, scientists, and leaders to Cornell to address environmental issues of paramount importance to humankind, will remain a keystone event at Cornell under the stewardship of CCSF. Recognizing scholarship on the frontiers of scientific inquiry and promoting an interdisciplinary approach to solving environmental problems, the Iscol Lectures provide opportunities for Cornell students, faculty, staff, and the public to gain new knowledge about pressing environmental issues and enrich the intellectual character of the University and the community.

Questions about the transition of CfE programs to CCSF should be directed to Professor [Anthony Hay](#), Interim Director of CfE, or to Professor [Frank DiSalvo](#), Director of CCSF.

Please look for the weekly *News and Announcements* distribution to return in Fall 2008.
