

2006Headlines for 6 2006
No. CEP-B-2006/6

■ Note from Editor:

CEP E-Bulletin is an online monthly Bulletin which is being used as an instrument of environmental dialogue amongst the Caspian Sea stakeholders. It acts as a window for all the stakeholders to express their views, share news and communicate with others. We welcome and in fact request you to use the CEP E-Bulletin to communicate with others on issues of interest as long as they relate to the extent of the Caspian Sea .

The CEP E-Bulletin is consists of three sections:

1. **Since We Last Met**, which includes CEP related events and information during the past 30 days.
2. **Upcomings**, which provides brief information about the future events in next 30 days.
3. **General News**, which presents a variety of interesting news and events on the subject of Caspian environment.

Please send us electronically what you wish to appear on the CEP-Bulletin to cep.pcu@undp.org. Our success depends on your partnership.
