Towards a Lake Basin Management Initiative and in Support of the Third World Water Forum: Sharing Experiences and Early Lessons in GEF and non-GEF Lake Basin Management Projects

GEFID#: 1665, GEF Agency Project ID#: P081004, Project Status: Completed

- 1.Document experience through case studies and thereby create new knowledge about lake management and facilitate sharing of experiences between managers and stakeholders.
- 2.Accelerate learning and implementation of effective lake and reservoir basin management
- 3.improved quality of lake and reservoir basin management.
4. presentation of initial findings to the 3rd World Water Forum and preliminary findings report to the 10th World Lakes Conference.

Hi Rafik Hirji
IA Project Coordinator/Task Manager
International Bank for Reconstruction and Development (WB)

PROJECT OBJECTIVE

The overall objective is to support mainstreaming into the economic development process the conservation and management of lakes and reservoirs through comprehensive water resources management. The purpose is to support strengthening the capacity for improved lake and reservoir basin management by assessing and drawing lessons from the achievements and implementation of all GEF-funded and/or assisted and selected non-GEF funded and/or assisted projects.

RESULTS: PROCESS

INDICATOR#1 Scope and scale of improved cross-sectoral integrated lake management

Results: Dissemination of Integrated Lake Basin Management (LBMI) findings and outputs at global water fora has changed the discourse on water. Lakes are now recognized by the mainstream water community as a key water resource whose management entails particular attention. LBMI has become an integral part of integrated water resources management.

INDICATOR#2 Increased dissemination of lessons learned on lake basin management.

Results: Several knowledge sharing activities were undertaken under the project and the main reports were distributed in world water fora such as the 11th World Lakes Conference in Nairobi (2005), 9th Ramsar COPs, Uganda (2005), Conference on Sustainable Utilization and Management of Asian Lakes, Manila (2005), High level Workshop on Indonesian Lakes (2005), Water Week, World Bank (2006) while lake briefs including the final report were distributed at the 4th World Water Forum, Mexico (2006), World Water Week, Stockholm (2006), etc.

RESULTS: STRESS REDUCTION

INDICATOR#1 (as in your results framework) [Please indicate the target in brackets]

Describe in one sentence the results in this area. Please quantify the results whenever possible.

INDICATOR#2 (as in your results framework) [Please indicate the target in brackets]

Describe in one sentence the results in this area. Please quantify the results whenever possible.

RESULTS: WATER RESOURCE AND ENVIRONMENTAL STATUS

INDICATOR#1 (as in your results framework) [Please indicate the target in brackets]

Describe in one sentence the results in this area. Please quantify the results whenever possible.

INDICATOR#2 (as in your results framework) [Please indicate the target in brackets]

Describe in one sentence the results in this area. Please quantify the results whenever possible.

The Global Environment Facility (GEF) *International Waters Results Notes* series helps the transboundary water management (TWM) community share its practical experiences to promote better TWM.
