

Questions for Session 9

What other ideas and opportunities can we think of to make science more accessible to policy making or to encourage cross disciplinary /cross institutional cooperation in the context of LMEs and the related tools?

What experience your project has in communicating results to various stakeholders (decision makers, scientists, private sector)?

Is there as need to define clearer communication objectives and targets as part of IW Project design and implementation?

How can we profit from social media opportunities to strengthen such interactions?

Do we need a dedicated programme on ocean literacy to support the GEF Marine Portfolio?
How can we convince the Private Sector into supporting SAP implementation, adopting and mainstreaming the LME Approach into its everyday management practices and business activities?

What would you suggest this community plans for the UN SDG 14 conference?
