CEP E-Bulletin is an online monthly Bulletin which is being used as an instrument of environmental dialogue amongst the Caspian Sea stakeholders. It acts as a window for all the stakeholders to express their views, share news and communicate with others. We welcome and in fact request you to use the CEP E-Bulletin to communicate with others on issues of interest as long as they relate to the extent of the Caspian Sea .

The CEP E-Bulletin is consists of three sections:

2. **Upcomings**, which provides brief information about the future events in next 30 days.
