Lake Victoria Environmental Management Project II APL1 (LVEMP II)

GEFID#: 3399, GEF Agency Project ID#: P100406, Project Status: Active

HIV/AIDS researchers at work on board RV Jumuiya

The EALP HIV Sero-behavioural studies have provided the "Maiden Assignment" for the LVBC owned research vessel RV Jumuiya. The vessel has provided the requisite facilities for conducting the HIV study including storage and drying rooms for the blood samples, cold rooms for the laboratory supplies and accommodation facilities for the research teams.

- 1. Improved collaborative management of the transboundary natural resources:** draft reports produced and discussed with Partner States and development partners on (i) harmonization of regional policies for water resources management produced and (ii) on options for the establishment of a Lake Victoria Environmental Fund; fisheries frame survey conducted in Lake Victoria in a coordinated manner by Kenya, Tanzania, and Uganda, with support from Lake Victoria Fisheries Organization.
- 2. Development of institutional and human capacity:** 508 industrialists from 107 industries trained in cleaner production technologies; Research Vessel Jumuiya rehabilitated, equipped, and available for use by all Partner States in Lake Victoria.
- 3. Reducing environmental stress in targeted pollution hotspots:** inventory and GIS mapping of 387 hotspots of point sources of pollution involving 292 industries in the Lake Victoria Basin in Kenya, Tanzania, and Uganda; 88 industries mapped and 24 in-plant cleaner production assessments completed.

PROJECT OBJECTIVE

Briefly summarize the project's development objective.

RESULTS: PROCESS

INDICATOR#1 (as in your results framework) [Please indicate the target in brackets]
Describe in one sentence the results in this area. Please quantify the results whenever possible.

INDICATOR#2 (as in your results framework) [Please indicate the target in brackets]
Describe in one sentence the results in this area. Please quantify the results whenever possible.

RESULTS: STRESS REDUCTION

INDICATOR#1 (as in your results framework) [Please indicate the target in brackets]
Describe in one sentence the results in this area. Please quantify the results whenever possible.

INDICATOR#2 (as in your results framework) [Please indicate the target in brackets]
Describe in one sentence the results in this area. Please quantify the results whenever possible.

RESULTS: WATER RESOURCE AND ENVIRONMENTAL STATUS

INDICATOR#1 (as in your results framework) [Please indicate the target in brackets]
Describe in one sentence the results in this area. Please quantify the results whenever possible.

INDICATOR#2 (as in your results framework) [Please indicate the target in brackets]
Describe in one sentence the results in this area. Please quantify the results whenever possible.

The Global Environment Facility (GEF) *International Waters Results Notes* series helps the transboundary water management (TWM) community share its practical experiences to promote better TWM. To obtain current *IW Results Notes* or to contribute your own, please visit <http://www.iwlearn.net/results> or email info@iwlearn.org.
